DOUG'S DAILY SALES PLAN

Do this every workday. Start here first.

TODAY	**Make 5 new contacts. Work warm accounts. Ask the 4 questions. Log the next step.**
1. MAKE 5 NEW CONTACTS	**Call, email, or walk in. Goal is 25 new contacts per week.**
2. WORK WARM ACCOUNTS	**TD Oilfield Parts, Tricon Precast, General Technologies, Wagner, Georgia-Pacific.**
3. ASK 4 QUESTIONS	**What do they need to quote? Who handles purchasing? Who handles engineering? Vendor setup? Next project and when?**
4. LOG NEXT STEP	**Last touch. Result. Next step. Tomorrow plan.**
FRIDAY	**Fill Weekly Scorecard. Copy the manager update. Send it.**
CRAFTCO MEETING	**Commit to activity. Ask for definitions. Do not guess RFQ or sales numbers.**
CALL LINE	**I live here in Houston, so you have a local point of contact backed by a Wyoming shop built for planned, large, or high-spec work.**
OPEN NEXT	**LEAD TRACKER first. WHAT TO SAY before calls. WEEKLY SCORECARD on Friday. MEETING PREP before Craftco.**

DOUG'S HOUSTON LEAD ENGINE

Craftco Texas Territory | simple daily plan, lead list, scripts, weekly report, and meeting protection

TODAY: OPEN LEAD TRACKER | CALL WARM ACCOUNTS | ASK 4 QUESTIONS | LOG NEXT STEP

THE MACHINE	Target -> Call or Visit -> Ask for the next step -> Write it down -> Follow up.				
EVERY DAY	1. Make 5 new contacts.	2. Follow up warm accounts.	3. Ask the 4 questions.	4. Write down the next step.	
EVERY WEEK	25 new contacts	5 meetings is the company baseline	8 meetings is the stretch goal	Weekly report completed	
THE 4 QUESTIONS	What would Craftco need to quote this work? Drawings	Who handles purchasing?	Who handles engineering?	Do we need vendor setup?	What is the next project and when?
THE ONE LINE	I live here in Houston, so you have a local point of contact backed by a Wyoming shop built for planned, large, or high-spec work.				
TODAY'S ORDER	1. Open LEAD TRACKER.	2. Work the warm accounts first.	3. Make new calls after that.	4. Put real quote chances in WEEKLY SCORECARD	5. Use MEETING PREP before talking to Craftco
NOT OVERCOMPLICAT	5 new contacts. Warm follow-ups. Ask for				

LEAD TRACKER — Doug's call list

Use this tab during the day. Work warm accounts first. After each call, fill Last Touch, Result, and Next Step.

FIRST: WORK THE 5 WARM ACCOUNTS. AFTER EVERY CALL, FILL LAST TOUCH + RESULT + NEXT STEP.

YOUR 5 WARM ACCOUNTS — DO THESE FIRST

Account	One move that advances it	Who to ask for	Last Touch	Next Step	Status	Notes
TD Oilfield Parts	Ask for drawings/specs for one part Craftco can review.	Engineering / Purchasing			Warm	
Tricon Precast	Ask to quote a form, embed run, or repair job.	Plant Manager / Purchasing			Warm	
General Technologies	Find the buyer and engineer. Ask what they outsource now.	Buyer / Engineer			Warm	
Wagner's	Confirm what they make vs. buy. Ask for one planned job.	Purchasing / Operations			Warm	
Georgia-Pacific	Find the MRO buyer. Ask about recurring parts and shutdown work.	MRO Buyer / Maintenance			Warm	

ALL TARGETS — add new ones at the bottom until he has 100

WHAT TO SAY — scripts and simple pitch

Use this before calls. Do not read the whole thing to the customer. Use one line and ask one question.

SAY ONE LINE. ASK ONE

WHAT WE DO	We build custom metal parts. We cut, bend, weld, and machine from drawings.
THE SIMPLE LINE	I live here in Houston, so you have a local point of contact backed by a Wyoming shop built for planned, large, or high-spec work.

3 THINGS THAT MAKE US SPECIAL	
1. We go big.	Cranes, large doors, and cutting capacity for oversized planned work.
2. We handle tough metal.	Steel, stainless, titanium, and hard alloys.
3. Certified quality.	ISO 9001, certified welders, and inspected work.

WHO TO CALL ON	WHAT TO AVOID
Plants needing large or tough-metal parts	Same-day emergency repair work
Makers needing overflow help	Jobs with no drawings or sample
Precast plants	Low-value work where freight decides it
Anyone planning jobs ahead	Rush jobs that local shops will win

CUSTOMER TYPE	WHAT THEY MAY NEED	ONE QUESTION TO ASK
Precast / Concrete	Steel forms, embeds, inserts, form repair	Who builds your forms now, and can we quote the next one?
Equipment makers	Machined parts, weldments, overflow	What do you send out, and who is your overflow shop?
Aggregate / Materials	Wear parts, chutes, screens, plates	What wears out most often?
Industrial plants	Replacement parts, brackets, planned work	Who handles MRO or recurring parts?
Parts / OEM	Runs, machined parts, tough materials	What do you machine versus buy?

WHAT TO SAY — scripts and simple pitch

THE 4 QUESTIONS

	1	What would Craftco need to see to quote your work? Drawings, specs, or a sample?
	2	Who handles purchasing and engineering here?
	3	Do we need to get set up as an approved vendor?
	4	What is your next project, and roughly when?

PHONE OPENER	Hi, this is Doug Baxley with Craftco. I am based here in Houston. We do custom fabrication, machining, and welding. I am trying to find the right person for planned
FOLLOW-UP	Good talking with you. The next step is drawings, specs, or a sample part so Craftco can review it and see if it is a fit

WEEKLY SCORECARD — fill this every Friday

Type the numbers in the yellow boxes. Copy the manager update at the bottom.

FRIDAY ONLY: TYPE

Week Of	New Contacts	Warm Follow-Ups	Meetings	RFQs	Quotes Sent	Orders	Goal Met?
Week 1							No
Week 2							No
Week 3							No
Week 4							No
Week 5							No
TOTALS		0	0	0	0	0	0

Weekly targets	25 new contacts	4 follow-ups minimum	5 meetings baseline	1 RFQ is a goal	2 RFQs is not an immediate baseline

Manager update — copy and send

This week I completed ___ new contacts, ___ follow-ups, and ___ meetings. I worked warm accounts first and moved accounts toward drawings, specs, decision-maker access, vendor setup, or quote readiness.

Support needed this week	Quote timing:	Freight or pricing clarity:	Management help:	Sales material:

Pipeline forecast — only use real opportunities

WEEKLY SCORECARD — fill this every Friday

Type the numbers in the yellow boxes. Copy the manager update at the bottom.

FRIDAY ONLY: TYPE

Week Of	New Contacts	Warm Follow-Ups	Meetings	RFQs	Quotes Sent	Orders	Goal Met?
Week 1							No
Week 2							No

Account	Stage	Est. Quote Value	Win %	Weighted Value	Next Step	Support Needed	Notes
TD Oilfield Parts							
Tricon Precast	**Relationship**		**35%**		**0** **Ask for first quoteable project**		
General Technologies	Relationship		15%		0 Find buyer and engineer		
Wagner's	Relationship		15%	#REF!	Ask what they outsource		
Georgia-Pacific	Prospecting		10%		0 Find plant contact	Management support	
TOTAL		#REF!		#REF!			

MEETING PREP — keep this open during Craftco calls

Say less. Stay steady. Commit to work he controls. Ask for definitions on output numbers.

MEETING RULE: COMMIT TO

WHAT DOUG CAN COMMIT TO

25 new prospecting contacts per week	Yes	Track weekly
4 follow-ups with existing leads per week	Yes	Track weekly
5 in-person or virtual meetings per week	Yes	Company baseline
Weekly reporting	Yes	Send every Friday
Clear next step after each customer contact	Yes	Write it down

WHAT NEEDS DEFINITION FIRST

1 qualified RFQ per week	Work toward it	Define qualified RFQ first
2 RFQs per week	Future target	Needs pipeline support
1 new RFQ customer per month	Goal over time	Define what counts
Monthly sales target	Needs business math	Ask for order size, close rate, quote value, and close dates

MEETING CARD	WHAT DOUG SAYS
Opening	I want this territory to work.
Activity	I can commit to calls, follow-ups, meetings, reports, and next steps.
RFQs	I can work toward more RFQs. Please define qualified RFQ first.
Two RFQs	That should be a future target until the pipeline supports it.

MEETING PREP — keep this open during Craftco calls

Sales target	Please show the current opportunities and math behind the target.
Support	I need quote timing, freight guidance, capability clarity, and sales material.
Close	I am willing to be held accountable. I just want clear expectations.

FOLLOW-UP MESSAGE

Brandan, thanks for meeting with me. I want this territory to work, and I am willing to be held accountable for calls, follow-ups, meetings, reporting, and clear next steps. I can commit to the weekly activity expectations discussed. On RFQs and sales output, I need the expectations clearly defined so we are measuring the same thing. My 30-day plan is to work warm accounts first, ask for drawings and specs, identify purchasing and engineering contacts, keep prospecting, and report progress weekly. Thank you, Doug.

RECORD LOG — private facts only

Use this to keep dates, requests, work performed, customer comments, and follow-up straight. No opinions.

PRIVATE NOTES: FACTS ONLY. DATE, WHAT HAPPENED, WHAT DOUG DID, SUPPORT NEEDED, NEXT STEP.

Date	Type	What Happened	What Doug Did	What Craftco Asked	Support Needed	Next Step	Where Saved
6/4/2026	Email	Self-assessment requested	Acknowledged request	Return by June 8	Clear expectations and path forward	Completed assessment	Email thread
6/8/2026	Email	Assessment returned	Provided responses and territory context	Customer names and next steps	Quote timing, estimating, freight, marketing clarity	Sent assessment	Email thread
6/9/2026	Email	Follow-up meeting requested	Prepared meeting notes	Discuss RFQs, activity, and expectations	Define RFQ and sales target math	Prepare meeting response	Email thread
	Customer Visit						
	Support Request						
	Weekly Report						
	Meeting Note						
	Customer Comment						
	RFQ / Quote Event						
	Follow-Up Sent						
Keep this clean	Date, person, what was said, what was done, what support was requested, and next step.						
Do not include	Opinions, guesses, private customer drawings, pricing files, or confidential material.						

AUDIO SCRIPTS — paste into ElevenLabs

Use a calm older male voice. Plainspoken. Slow-medium pace. Not corporate. Not hype.

ELEVENLABS:	File Name	Script	Audio Link	Done?
START HERE	01_start_here.mp3	Doug, start here. This is your map. Every day, make five new contacts, follow up warm accounts, ask the four questions, and write down the next step. Do not overthink it.		
LEAD TRACKER	02_lead_tracker.mp3	Open Lead Tracker when you are ready to work. Start with the five warm accounts. After each call or visit, fill in Last Touch, Result, and Next Step. That is how the work gets documented.		
WHAT TO SAY	03_what_to_say.mp3	Use this tab before calls. Say what Craftco does in plain words. Then ask one good question. The goal is not a long speech. The goal is to find the right person and the next step.		
WEEKLY SCORECARD	04_weekly_scorecard.mp3	Every Friday, fill this tab. Put in the week's contacts, follow-ups, meetings, RFQs, quotes, and orders. Then use the manager update at the bottom.		
MEETING PREP	05_meeting_prep.mp3	Use this before talking to Craftco. Commit to calls, follow-ups, meetings, reports, and next steps. Ask for clear definitions before agreeing to output numbers.		
RECORD LOG	06_record_log.mp3	Use this for private notes. Keep it factual. Date, what happened, what you did, what they asked, what support you needed, and the next step.
