PROFILE

Director-level HR and People Operations leader with 13 years owning and building the people function for complex, high-stakes organizations. Most recently the sole HR leader for a $2.5B+ hyperscale data center program — standing up the entire HR, safety, and compliance operation for a four-company joint venture and its 4,600+ peak workforce, and serving as primary people advisor to project executives and partner-firm leadership. Strong across organizational design, workforce planning, change management, and employee relations, backed by the analytics, forecasting models, and systems that give leaders real visibility into their workforce. Equal parts strategic partner and operator — trusted to navigate ambiguity, align executive and external stakeholders, and turn reactive environments into performance-driven cultures.

EXPERIENCE

Human Resource Manager — Mega Projects

Oct 2025 — Present

Turner Construction Company · CTS Lonestar JV · Dallas–Fort Worth Metroplex · Hybrid

> *Sole HR leader for one of the largest projects in its partner firms' history — a $2.5B+ hyperscale data center campus (five data centers plus on-site workforce housing) delivered by a four-company joint venture (Clayco · Turner · Source · TW Constructors), scaling to a 4,600+ peak workforce.*

- Owned the program's entire HR function solo for eight months — the only HR leader across a four-company joint venture and its 4,600+ peak workforce — operating with the autonomy and decision authority of a senior-level program leader.
- Served as primary people advisor to project executives and partner-firm leadership, leading leadership-development sessions, partner stakeholder meetings, and high-stakes workplace investigations across the joint-venture organizations.
- Ran a standalone megaproject HR function nested within a multi-tier enterprise — project to business unit to region to national operations — aligning on-site execution with enterprise HR strategy across overlapping partner and owner-controlled (OCIP) systems.
- Built the program's HR operating model from the ground up — workforce onboarding, safety badging, and compliance intake — standardizing jobsite entry for every worker across all four trade-partner organizations.
- Designed a workforce-forecasting and people-analytics model (FTEs, projected vs. actual man-hours, OSHA recordables) and a Google Workspace onboarding portal with live dashboards, giving leadership real-time visibility to drive staffing, schedule, and safety decisions.
- Owned employee relations, investigations, and conflict resolution across a 4,600+ multi-employer workforce; led English- and Spanish-language workforce communications; built a culture of safety, inclusion, and transparency under intense schedule pressure; and developed the project's early-career talent pipeline through an 11-member internship program.
- Served on the project Emergency Response Team, leading the HR-side response to critical, life-threatening incidents in close coordination with safety, medical, and executive leadership.

Human Resource Manager

Apr 2023 — May 2025

Capitol Imaging Services · Houston MRI & affiliated centers · Houston, Texas

- Sole HR leader for a 650+ employee, 40+ location diagnostic-imaging organization — owning recruitment, employee relations, compliance, benefits, and multi-site people strategy end to end.
- Advised executives and site leadership on workforce planning, performance, and organizational decisions across a geographically distributed, high-volume healthcare operation.
- Led HR through two acquisitions (TX + GA) and multi-state compliance (TX · GA · FL · LA · MS · AL) across FMLA, ADA, and EEOC — building scalable HR infrastructure and the company-wide handbook.
- Lifted eNPS by 46 points, cut time-to-hire by 80%, reduced employee-relations issues by 50%, and improved leadership effectiveness by 60% through coaching, training, and performance-management programs.

Human Resources Generalist

Jan 2021 — Jan 2023

Sonnenalp Resort · Vail, Colorado · Hybrid

- Primary HR lead for employee relations, compliance, and performance management at a luxury resort operation.
- Managed disciplinary actions, coaching plans, and conflict resolution, reducing grievances by 42%.
- Built internal promotion paths, increasing career mobility by 35%.

Human Resources Generalist

Sep 2017 — Jan 2021

OTR Fleet Service LLC · Houston, Texas

- Stood up the internal HR department from the ground up, reducing HR costs by 26% while building core people and compliance processes.

Human Resource & Operations Manager

Feb 2009 — Sep 2017

Massage Heights · Houston, Texas

- Led combined HR and operations for a multi-location service business, lifting revenue 20% through performance-based staffing and team development.

INDEPENDENT VENTURES

Galaxy Sports Network (GSN)

Founder & Lead Architect

A sports-analytics and prediction platform built end to end — a PostgreSQL data pipeline that ingests live feeds via API and transforms them into ranked, probability-weighted outputs in a real-time operator dashboard. Own the full stack: data engineering, predictive modeling, and product architecture (Next.js · Prisma · PostgreSQL).

LUMERA

Founder & Lead Architect

A multi-vendor digital marketplace on a modern commerce stack (Medusa · Next.js · PostgreSQL/pgvector · Redis) with a vector-search–driven product-discovery and recommendation engine. Designed the data model, multi-vendor architecture, and brand system end to end.
